Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Claims 1 and 16 are allowed in view of applicant's arguments (pages 8-9) filed July 13, 2006 with respect to the newly added limitations in the amended claims. Specifically, the cited prior art does not specifically disclose a process determining circuit for determining a process to be actually performed if control information is acquired from a plurality of tables with respect to one packet by a control information acquiring circuit, where the control information represents an input/output port for outputting the packet represented by the control information acquired from the table containing header information belonging to a layer higher than a third layer. Claims 2-6, 8 and 10-14 depend upon claim 1 and are therefore allowed for the same reasons discussed above regarding claim 1.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Justin M. Philpott whose telephone number is 571.272.3162. The examiner can normally be reached on M-F, 9:00am-5:00pm.
